

SecureKey M130

The SecureKey™ M130 is an encrypted key pad with a Magstripe reader that offers retailers a complete and reliable security solution. This intelligent reader delivers superior reading performance while encrypting sensitive Magstripe and keyed-in data that reduces the scope of PCI-DSS. Each SecureKey M130 is assigned a unique serial number for tracking purposes. Encrypted data output with confirmation data in clear text form is programmable up to the first six digits and the last four digits of the account number.
