

Vendi

The ViVOpay Vendi contactless and magnetic stripe all-in-one payment device provides vending machine operators with an integrated acceptance device for contactless cards, NFC mobile phones and magnetic stripe cards. Customers can just tap or swipe to make a payment, while being guided through the payment process via the integrated high-contrast display. It is also capable of "remote download" to update its firmware applications without need for local intervention.

HARDWARE	Processor: Display: MSR: Audio-Visual: Input Voltage:	ARM Cortex M4 Processor 16 x 2 Characters Up to 3-track bidirectional Beeper and LEDs +7.5V to 45 VDC
