

UniMag Demo (iOS) - Home

ABOUT THIS APP

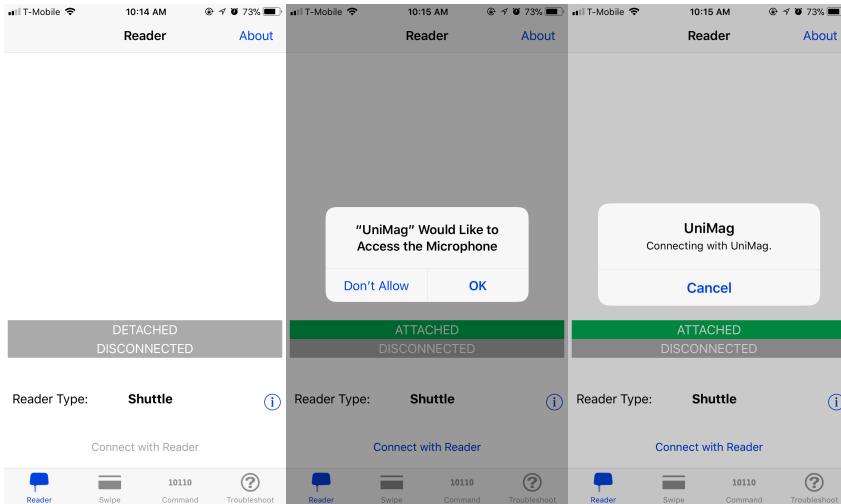

"ID TECH uniMag Reader" is provided by ID TECH for demonstrating functionality of the ID TECH UniMag family of mobile mag stripe card readers, whose members include UniMag (original), UniMag Pro, UniMag II, Shuttle, and UniJack. This app does not process payment or send any information over the internet.

TO READ A MAG STRIPE CARD

1. Press the information icon (letter 'i' in blue circle) to select your reader type.

2. Attach card reader to the headphone jack, then in the Reader tab, press 'Connect with Reader' to allow the app to connect with it.

3. In the Swipe tab, press 'Read Card Swipe,' then make a swipe on the reader. Card data should then be displayed. *This app automatically maximizes the headphone volume.

TO SEND A COMMAND TO READER

1. In the Command tab, use the picker to select a command, then press 'Send Command.'
2. Reader's response to the command should then be displayed.
